MEMORANDUM FOR: General Counsel

ATTENTION : [REDACTED] 25X1A

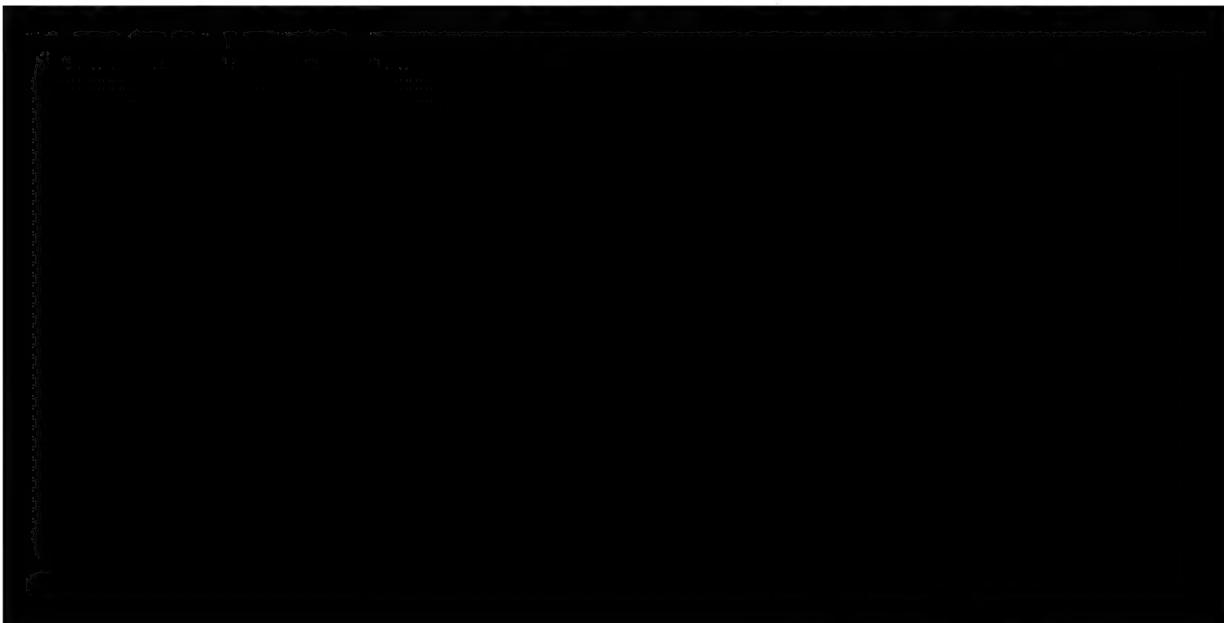

SUBJECT : Intelligence Sources and Methods

REFERENCE : Memorandum from Assistant General Counsel,
dated 14 March 1975, Same Subject
(OGC 75-0972)

1. Pursuant to your request, the Office of Security has reviewed the General Counsel's draft listing of "Aspects of Intelligence Sources and Methods" that require protection from unauthorized disclosure.

2. In answer to your question, paragraph 2 of reference, concerning Agency safety programs, the broad scope of aspect 65 coupled with aspect 3 appears to satisfy for the association of any location (site) with the Central Intelligence Agency, as well as for the equipment used by the Central Intelligence Agency to "secure" it. ("Secure" in the sense of affording safety would seem to naturally include Agency safety programs.)

5. The Office of Security also has some concern with the distinction used in both aspects 29 and 65 which makes the subject matter of each aspect (counterintelligence - securing of assets) protectable only because of association with the Central Intelligence Agency. There are some "techniques...systems and subsystems" in both activities unique to the Central Intelligence Agency and/or by their nature enjoined to be protected from unauthorized disclosure. It is recommended that the qualifying phrase "The association with the Central Intelligence Agency of" be deleted from both aspects 29 and 65. In the matter of nonunique "techniques...subsystems," they would necessarily be made protectable because they are "used by the Central Intelligence Agency," which presupposes an association. In the matter of any "techniques...subsystems" unique to the Agency and/or which by their very nature should be protected, the phrase establishes a qualifying factor that is not germane.

6. Please advise if the Office of Security can be of any further assistance in this matter.

MEMORANDUM FOR: Director of Security

ATTENTION : Chief, Policy and Plans Group

SUBJECT : Intelligence Sources and Methods

REFERENCE : Memo for Asst. for Coord./DDA, fm D/Security,
Subj: Office of Security Contribution to Sources
and Methods Listing, dtd 7 March 75

1. Based on the information in referent and similar submissions from other offices, I have drafted a number of Aspects of the subject which require protection. Attached is a list of most of those Aspects drafted to date. In some cases referent identified a number of documents, reports and files that should be protected. As you will see from the attached listing, I have taken a slightly different approach and am attempting to itemize the substantive information that might be in such documents, reports and files as that which requires protection. Listed below is a tabulation of the Aspects which are intended to cover the paragraphs of referent.

Paragraph(s)	Aspect(s)
1.a.1. and 2.	1, 2, 3, 20, 42, 43, 52, 54 and 62, as well as various substantive Aspects
1.a.3. and 4.	1, 2, 29, 34, 42, 43 and 54
1.b.1. through 6.	3, 20, 54 and 62
1.b.7.	2
1.b.8. and 9.	7, 11, 12, 23, 29 and 43
1.b.10. through 14.	65
1.b.15.	56
1.b.16. through 18.	65
1.b.19.	9, 28, 31, 54 and 65
1.b.21. and 22.	see discussion below
1.b.23. through 25.	29, 34 and 65

Paragraph(s)	Aspect(s)
1.b.26. through 29.	65
1.b.30.	13 and 65
1.b.31.	19, as well as various substantive Aspects
1.b.32.	3
1.b.33.	9, 28 and 31
1.b.34.	1, 2 and 65
1.b.35.	65
1.b.36.	24 and 65
1.b.37.	1 and 2
1.b.38.	65

2. You may find that some of the other Aspects also relate to your paragraphs. As you will note, some of the Aspects are somewhat broad and others are rather specific. Generally I have tried to draft a rather broad Aspect to cover the particular item requiring protection, but in some cases more specific Aspects were also added for extra protection. You might review the list with that in mind. For example, we could draft a specific Aspect in line with your paragraph 1.b.35. (storage areas). I have not drafted an Aspect regarding the Agency safety programs (paragraphs 1.b.21. and 22.), as I am not familiar with the aspects of those programs that must be protected. Will the broad scope of Aspect 65 offer the required protection?

3. I have made a conscientious effort in drafting the Aspects to differentiate between an activity in which only the Agency association should be protected from disclosure from an activity in which details of the techniques, procedures or equipment associated therewith should be protected. I would ask for your careful review in this regard.

25X1A

Assistant General Counsel
